### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification:

PARAGRAPH [0001], LINE 8, after "(Serial No. 10/792,684)," add --now abandoned--

### *Allowable Subject Matter*

2. Claims 36-48 are allowed.

3. The following is an examiner's statement of reasons for allowance: **Stack et al. (US 6,833,002 B2); Jones et al. (US 2005/0049668 A1), Jones et al. (US 2005/0049669 A1), Jones et al. (US 20050049670), Schuetz (US 5,843,090), Jones et al. (EP 1518515), Brown et al. (US 6,702,843 B1), Herbert et al. (US 2003/0163156 A1) and Fischell et al. (US 5,639,274)** alone or in combination, all fail to disclose or suggest the following patentable limitations of the applicant's claimed and disclosed invention:

- A method for treating a vessel that includes passing a balloon catheter towards a treatment site over an elongate stent carrying member, which serves as a guidewire for the balloon catheter before deployment of the stent in order to expand the balloon and dilate the treatment site.

Art Unit: 3734

- The prior art on record show that it is well known to have combinations of balloon catheters and stent carrying members, where either both the stent carrying member and the balloon catheter are delivered to the treatment site together or where the balloon catheter is used to pre-dilate and post-dilate the treatment site but the prior art of record does not show the step of passing a balloon catheter to the treatment site over an elongate stent carrying member which serves as a guidewire prior to deployment of the stent.

The Examiner notes that the claims do not specifically state that the steps are performed in a specific order, however, the limitation "serves as a guidewire for the balloon catheter" clearly demonstrates that the stent carrying member has to be in place before the balloon catheter can be passed over it.

4. The combination of the claimed limitations are novel and found to be allowable over the prior art. The cited references taken alone or in combination do not anticipate or make obvious applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
